To access the toll-free number, a caller must first dial a country access number (see below). Upon dialing the access number, the caller will be connected to the U.S. toll free system which will be answered either by an AT&T operator or a tone and voice message instructing the caller to dial the toll free number. Dial 877-285-4145. All voice messages are in English, and all operators answer in English, but non-English speaking callers are accommodated (see STEP 3).

STEP 1: Enter the AT&T Direct Access Number for the country you are calling from (see below).

STEP 2: When you hear the English-language voice prompt or series of tone prompts, dial 877-285-4145 (DO NOT press "1" or "0" before dialing the telephone number).

STEP 3: The call will be connected to AlertLine. If you do not speak English, or prefer to have an interpreter assist you, inform the AlertLine Specialist which language you speak. The Specialist will then conference in an interpreter. As this happens, you will hear music, please remain on the line for a few minutes until an interpreter is able to join your conversation to assist you and the Communication Specialist in completing the call.
